Liquids allowed in carry-on baggage

Liquids: The term “liquids” includes, but is not limited to, the following items: Water, beverages, soup, juice, jam, puree, sauce, paste, toothpaste, food with liquid content, oil, body wash, cosmetic products, perfume, spray able liquids, paint, hair and other gels, pressurized containers, shaving and other foams, deodorants, mixtures of solids and liquids, mascara, lip gloss, balm, and other substances with similar properties at room temperature.

- ✓ All containers must fit within a single, transparent, re-sealable plastic bag with a total capacity not exceeding 1 liter.
- ✓ The plastic bag must be fully sealed during transport.

- ✓ Liquids in containers larger than 100 ml are not permitted in carry-on baggage, even if the actual amount of liquid is less than 100 ml.
- ✓ However, empty containers with a capacity greater than 100 ml are allowed in carry-on baggage
- ✓ Liquids carried in carry-on baggage must be in individual containers of no more than 100 ml each.
